Comprehensive GI Support Made Easy!

It used to take an entire regimen of supplements to keep your gastrointestinal system functioning at its best. Along with daily probiotics, you'd have to take separate supplements whenever you had a bout of occasional indigestion, loose stools, or constipation.

But now, all you need is Gastro-Assist!

- Supports intestinal health
- Soothes occasional digestive complaints like diarrhea, constipation, bloating, gas, and heartburn
- Helps protect the cells lining the stomach and intestines
- Promotes healthy immune function
- Supports healthy gut bacteria
- Helps promote the growth of healthy gut bacteria after antibiotic use

So how does Gastro-Assist accomplish this? Through a unique, synergistic combination of five powerful ingredients you can't find in any other gastrointestinal support supplement.

BB536 and *Saccharomyces boulardii* Probiotics for Gut Health

Gastro-Assist's star ingredient is BB536. When combined with *Saccharomyces boulardii*, it becomes a powerful probiotic duo that encourages a healthy balance of bacteria throughout your gastrointestinal tract.

BB536 is a highly researched, proprietary strain of the *Bifidobacterium longum* probiotic. It's been shown in clinical studies to increase levels of beneficial bacteria in the gut, protect mucous membranes, support healthy inflammatory responses, and promote immune cell growth for healthy immune function. Studies also show BB536 can help with occasional constipation, loose stools, gas, and bloating.

S. boulardii is a type of yeast that acts as a probiotic, helping support intestinal flora recovery after antibiotic use. It helps keep a balance of healthy bacteria in the gut and also supports healthy inflammatory responses.

Mastic Gum for Indigestion

Another one of Gastro-Assist's star ingredients is mastic gum, a resin from the mastic tree that has antioxidant properties and supports healthy inflammatory responses.

Mastic gum naturally helps soothe indigestion issues like heartburn and abdominal discomfort.

Zinc L-carnosine for Natural Immunity

Gastro-Assist's comprehensive formula includes a powerful combo of the mineral zinc and the amino acid L-carnosine.

Zinc L-carnosine forms a protective layer on the cells that line the mucous membranes in your stomach and intestines. This helps support natural immunity and promote healthy inflammatory responses.

Chamomile for Digestive Comfort

Last but not least, Gastro-Assist includes chamomile extract. **This herb has been used for centuries to calm stomach issues like indigestion and other discomfort.** Also recent research supports its use as a muscle relaxant and sedative.

Gut Health Made Simple

It couldn't be easier to support your stomach and intestinal health with Gastro-Assist. Just one serving can give you the comprehensive digestive support you need and deserve!
